OUR

IIDSUMMER

House-cleaning in August may not be good domesticity but it's good merchandizing. We're promised 2½ months, full 80 days of warm weather yet, so the seasonableness of our goods can't be disputed. You need coaxing, we need money. Therefore we're going to convert stock into cash by offering price inducements you can't resist. It's easy enough to sell the "cheap" cheap, but we're selling the good cheap. Key your expectations to the highest, then come. This is a sale to move accumulated stock, not to make a profit. Begins Monday, August 12th, ends Saturday, August 17th.

THERE are some mighty good law yers who agree with THE LEDGER that a saloon-keeper is ineligible to a seat in Council, by reason of his "contract" with the city.

SENATOR DEBOE has secred one decided victory. He has had a poor widow removed from the Postmastership at New Castle and a man appointed in her place. And, as Ask CARUTH would say, he "done it" in the face of strenuous opposition.

THE Evening Bulletin thinks the workingman would buy his granu-lated sugar 2 cents a pound cheaper than he now does if it were not for the "Trust." Well, sugar is much cheaper now than it ever was under cheaper now than it ever was under the independent refinery system. It is selling at about 5% cents a pound for the best refined article. The grow-ers charge about 4% cents for the raw sugar, just as it comes from the plan-tation. The refiner gets about 1% cents a pound for refining it, with all its attendant expenses of shipment, freight, &c. If the price were lowered over the removed it would wine the Ireignt, &c. If the price were lowered 2 cents per pound, it would wipe the refiner out altogether; and part of the reduction would come off the planter. Or does The Bulletin want to wipe out the poor planter also?

THE stock of gold in the United The stock of gold in the United States Treasury is now the largest in the history of the Government, being \$604,364,297, an increase since July let a year ago of \$81,000,000. This is in strong contrast with the condi-tion of the Treasury only about seven years ago, when it was about at the vanishing point. As a matter of fact, at this critical moment a number of at this critical moment a number o sub-Treasuries were hastily called sub-Treasuries were hastily called upon to remit by express what gold they had to New York, resulting in \$12,000,000 being forwarded. If any considerable part of this amount had miscarried or been delayed twenty-four hours the Government would have been compelled to have defaulted in its downed cold respect for the in its demand gold payments for the time being at least.

TO BE DEPENDED ON.

Because It Is the Experience of a Mays ville Citizen and Can Readily Be Investigated.

A stranger lost in a large city would place far more dependence on the directions given him by a local resident than the guidance of another stranger like himself. This is natural consequence of experience; it is like a ship in a strange port—a trusty plot familiar with the harbor is called upon to bring her safely to her moorings. So it is with indorsement, we doubt the sayings of people can't investigate, but public expression of local citizens can be depended on, for vis an easy matter to prove it. Evidence like the following is beyond dispute.

The Investment Company has taken its place as a permanent institution, and the prejudices that obstructed its early growth are disappearing in the light of experience in its workings. For many months the people of Mason county have been sending over \$1,000 a month to be invested in companies at Lexington and other places. Now that we have a Company at home whose plan is the latest and most approved and whose Managers are personally known to you as men of standing and integrity, why not put your investment with them? Patronize your home institution, and your city and county will develop.
